Havana - A Very Different Florida

Since 1987, *The Havana Christmas Tree Farm (HCTF)* on Hwy 27 has been the place for families to come together and select their trees. Fresh cut and sold for **\$8.00 per vertical foot**, the farm's 30 acres are planted with fresh Pines, Cedars and Cypress Junipers. **Frazier Firs** are brought in and can be purchased, starting at **\$69.00**. They have live potted trees to start your own tradition. Known for their large assortment of yard art, HCTF not only sells it, but repairs it and can arrange to store yours after the holiday is over. Don't forget your garland and wreaths, also made fresh on site. While you are there be sure to check out their well stocked Christmas Shop. Various theme ornaments, treats and gifts fill your needs, many made by local artisans.
